Dear Colleagues,

The [IFALPA Daily News](#) is now available online.

Here are today's top headlines. To read more, click on the title:

[Pilot monitoring guide nears completion](#)

The final version of a guide to teach pilot monitoring skills should be released by late spring next year, a member of the working group told an audience at the Flight Safety Foundation (FSF) international safety summit in Washington, D.C. Pilot monitoring deficiencies have been listed as a contributing factor in a number of accidents over the past decade.

[Air India discovers 400 'ghost employees' including pilots and cabin crew members](#)

After being notoriously lethargic, another startling revelation about state-owned airline Air India (AI) has sent the Human Resource (HR) department of the Public Sector Undertaking (PSU) in a state of shock.

[TSB sounds safety alarm on runway overruns](#)

The Transportation Safety Board of Canada (TSB) said that it is concerned that runway overruns may continue if no more is done to understand the issue of uncommanded nose wheel steering events on Boeing aircraft.

[Airline passengers threatened to blow up plane in midair, court hears](#)

Tayyab Subhani and Mohammed Safdar are accused of endangering safety of flight from Lahore to Manchester in May.

[Australia expands ADS-B network as mandate nears](#)

Airservices Australia commissioned two new ground stations to support its national automatic dependent surveillance-broadcast (ADS-B) network as the country's first ADS-B mandate approaches.

[Israel and Philippines sign direct flight agreement](#)

Israel and the Philippines have signed an aviation agreement to allow direct scheduled flights between the two countries for the first time. The agreement supersedes the 1951 agreement.

[Lanseria's new runway is operational](#)

Lanseria International Airport, north-west of Johannesburg, has opened a new 3 000 metre long, 45 metre wide runway.
