Dear Colleagues,

The [IFALPA Daily News](#) is now available online.

Here are today's top headlines. To read more, click on the title:

[FAA clears 787 battery fix, ends flight ban](#)

The US Federal Aviation Administration gave formal approval on Thursday for a new lithium-ion battery system for the Boeing 787 Dreamliner, ending a three-month ban and clearing airlines to fly the plane with passengers again.

[China's self-developed biofuel test flight successful](#)

Sinopec, China's top oil refiner, announced the success of the first test flight powered by the company's newly developed aviation biofuel product on Wednesday.

[Protected airspace for circling approaches to expand](#)

The FAA will begin publishing instrument approaches that use larger circling-approach airspace dimensions on May 2, addressing industry safety groups' assertions that the radii were "insufficient to contain large, jet transport airplanes during the circle-to-land maneuver," according to NBAA.

[Angolan plane fall man 'wanted better life'](#)

A man found dead in west London after falling from the undercarriage of an airplane wanted to come to Europe for a better life, an inquest has heard.

[US Senate passes bill to end ATC furloughs](#)

The US Senate moved quickly late on Thursday to end air traffic controller furloughs that were causing widespread airline flight delays related to last month's automatic federal spending cuts.

[Philippine Airlines in major route expansion](#)

Philippine Airlines announced a major route expansion on Friday to better serve the army of Filipino expatriate workers in the Middle East.
